Frederick, Maryland 21701

Dear Harold:

I had two young men from Baltimore visit me on Friday, along with a local person and we spoke at length about the assassination. I told them I got more information from you than anybody else but had some information at the house that I never looked at.

They told me you were having some health problems which I certainly hope get better. I want to wish you a happy new year and I miss hearing from you.

Your Friend,

Henry Wade
